

TEL ENERGY LIMITED RECEIVES ISO 9001:2015 CERTIFICATION

Tel Energy Limited, an emerging player within the downstream petroleum industry in Ghana is proud to announce that it has been certified according to the standard ISO 9001:2015 after being independently verified by TÜV Hessen, one of the leading certification bodies in the world.

With this single stroke of achievement, Tel Energy joins an elite club of companies both nationally and globally that have demonstrated their commitment to quality and customer satisfaction as well as the continual improvement of their business processes and integrating these into the realities of the changing world.

After nine years of solid operations in a highly competitive downstream environment, Tel Energy was minded to take a stand for its stakeholders. It is in this regard that the company subjected its operations to the rigorous ISO 9001:2015 international standard which specifies requirements for a Quality Management System (QMS) and demonstrates the company's ability to consistently provide products and services that meet customers' and regulatory requirements.

The certification is proof that the benchmarks have been met and deepens the company's credibility to do business with. It has further improved the company's productivity through skills development, staff retention and empowerment to deliver to customer expectations.

We would also like to take this opportunity to extend our sincere appreciation to our dedicated staff and other stakeholders for the diverse and significant roles they played in making the certification possible.

Signed.

Lawrence Lou Anuseh
Managing Director, Tel Energy Limited.
